

About KYSCO

The Kentucky Society of Clinical Oncology (KYSCO) was organized in 1999 as a 501(c)6 medical society to promote advocacy, education, and communication for oncologists and other multidisciplinary cancer care team members.

KYSCO is a state Chapter Member of the Association of Cancer Care Centers (ACCC) and a State Affiliate of the American Society of Clinical Oncology.

Members receive valuable educational content and innovative resources designed to help stay ahead of state and national challenges that directly impact the high-quality, affordable care their patients deserve.

OUR MISSION

KYSCO's mission is to improve outcomes for patients with cancer through medical education, advocating for patient access to the highest quality of cancer care, and elevating awareness of clinical trials enrolling in the state of Kentucky.

KYSCO works closely with other healthcare organizations such as the National Comprehensive Cancer Network, the American Society of Hematology, the Kentucky Medical Association, and patient advocacy groups.

Cancer care and treatment options continue to rapidly evolve. KYSCO is working hard to protect patient outcomes and the ability of physicians to provide quality care in a variety of treatment settings.
